Welcome message from the Conference Chair	4
<i>Prof. Habiba Drias</i>	
Message from the Program Chair	5
<i>Dr. Dalila Boughaci</i>	
Program and organizing committees	6
Plenary Lectures	
Contextual Search and Contextual Factors Aggregation	8
<i>Invited Speaker : Prof. Gabriella Pasi</i>	
Database Preferences: Why – How and where we are?	9
<i>Invited Speaker : Prof. Allel Hadjali</i>	
Cooperative multi-agent systems (MAS)	10
<i>Invited Speaker : Prof. Nadia Abchiche-Mimouni</i>	
Long Papers	
Boundary conditions for Shape from Shading	12
<i>Lyes Abada, Saliha Aouat and Omar El Farouk Bourahla</i>	
AdaBoost-based Approach to Arabic Text Summarization	22
<i>Riadh Belkebir and Ahmed Guessoum</i>	
Rule Mining based Grammatical Evolution to detect Epistasis	32
<i>Aicha Boutorh and Ahmed Guessoum</i>	
Efficient texture analysis using local and global descriptors	42
<i>Izem Hamouchene and Saliha Aouat</i>	
NRGB and Co-occurrence Matrix for CBIR	51
<i>Hadjer Lacheheb and Saliha Aouat</i>	
GA Vs.BBO for the Minimum Interference Frequency Assignment Problem	61
<i>Yasmine Lahsinat and Dalila Boughaci</i>	
A Hyper-Heuristic Approach for the Winner Determination Problem	71
<i>Mourad Lassouaoui and Dalila Boughaci</i>	
Feature Selection using Cuckoo Search for Supervised Classification	81
<i>Messaouda Nekkaa and Dalila Boughaci</i>	
Local Search Method for Grayscale Image Reconstruction in Tomography With New Operators	90
<i>Ahlem Ouaddah and Boughaci Dalila</i>	
Personalizing the result merging process in distributed information retrieval using social profile.	99
<i>Saoud Zakaria and Samir Kechid</i>	

Table of Contents

Short Papers

- Optimization of a codebook design by the hybridization of meta-heuristics 106
Hakima Amrouche and Fatiha Merazka
- A new algorithm for Incremental Clustering based on k-means and Ant Colony
Optimization. 111
Yasmina Boughachiche and Nadjat Kamel
- An extension of RSA 512 to RSA 1024 Core under Hardware Software Platform based
on Montgomery Powering Ladder 120
Wahiba Hentabli and Fatiha Merazka
- A Collaborative Search Method for the Traveling Tournaments Problem 127
Khelifa Meriem and Dalila Boughaci
- An overview Of Moving Object Detection In Video Surveillance Applications 135
Khdadidja Nour El Houda Slimani and Feryel Souami

Poster Papers

- Multi-objective artificial immune algorithm for joint production and maintenance
scheduling: application to the Hybrid Flow Shop 142
Wahiba Aliouat
- Classification of Intrusion Detection Systems alerts using clustering techniques 144
Naila Belhadj Aissa and Riadh Baba-Ali
- Indexing and dictionary approximate string matching with k error 146
Ibrahim Chegrane
- Towards a Shared Repository for Storing and Discovering Web Services in a Distributed
Environment 148
Moussa Kaouane, Sidi Mohamed Benslimane and Djelloul Bouchiha
- Instances-Base Ontology Alignment Approach: Using Argument and Event Structure of
Generative Lexicon. 150
Abderrahmane Khat
- Towards a taxonomy of approaches for PET-CT medical images segmentation. 152
Hanan Magroun, Smaine Mazouzi and Hamid Seridi
