

LRIASD 2014 Schedule

Tuesday, 20 May 2014

Conference room of the
Cyberspace, USTHB

LRIA

08:30 Welcome

08:50 Opening Session:

9: 15: **Plenary session** : Chairs: Prof. Habiba Drias & Dr. Feryel Souami
Contextual Search and Contextual Factors Aggregation
Invited Speaker: **Prof. Gabriella Pasi**, Università degli Studi di Milano Bicocca

10:45 Coffee Break

Session 1: Chairs: Prof. Zaia Alimazighi & Prof. Ahmed Guessoum

- 11:00: Yasmine Lahsinat, GA Vs. BBO for the Minimum Interference Frequency Assignment Problem.
- 11:20: Aicha Boutorh, Rule Mining based Grammatical Evolution to detect Epistasis.
- 11:40: Messaouda Nekkaa, Feature Selection using Cuckoo Search for Supervised Classification.

12:00 Lunch and Prayer Break

Session 2: Chairs: Prof. Aicha Mokhtari-Aissani & Dr. Nadjet Kamel

- 14:00: Ahlem Ouaddah, Local Search Method for Grayscale Image Reconstruction in Tomography With New Operators.
- 14:20: Hadjer Lacheheb, NRGB and Co-occurrence Matrix for CBIR.
- 14:40: Khadija Nour El Houada Slimani, An overview Of Moving Object Detection In Video Surveillance Applications.
- 15:00: Izem Hamouchene, Efficient texture analysis using local and global descriptors.
- 15:20: Omar El Farouk Bourahla, Boundary conditions for Shape from Shading.
- 15:40: Hakima Amrouche, Optimization of a codebook design by the hybridization of meta-heuristics.

16:00 Coffee Break

Session 3: Posters, Chairs: Dr. Dalila Boughaci & Dr. Samir Kechid

- 16:10: Ibrahim Chegrane, Indexing and dictionary approximate string matching with k error
- 16:15: Wahiba Aliouat Multi-objective artificial immune algorithm for joint production and maintenance scheduling: application to the Hybrid Flow Shop
- 16:20: Naila Belhadj Aissa, Classification of Intrusion Detection Systems alerts using clustering techniques
- 16:25: Hanan Magroun, Towards a taxonomy of approaches for PET-CT medical images segmentation.
- 16:30: Khiaf Abderrahmane Instances-Base Ontology Alignment Approach: Using Argument and Event Structure of Generative Lexicon
- 16:35: Djelloul Bouchiha, Towards a Shared Repository for Storing and Discovering Web Services in a Distributed Environment

@ LRIA-USTHB

LRIASD 2014 Schedule

Wednesday, 21 May 2014

Conference room of the
Cyberspace, USTHB

LRIA

8: 30 **Plenary session**,

Chairs: Prof Malika Boukala –Ioualalene & Prof. Thouraya Bouabana Tebibel

Database Preferences: Why – How and where we are?

Invited Speaker: **Prof. Allel Hadj-Ali**, ISAE – ENSMA, France,

10:00 Coffee Break

Session 1: Chairs Prof. Amar Aissani & Prof. Abdelkader Belkhir

- 10:15: Riadh Belkebir, AdaBoost-based Approach to Arabic Text Summarization.
- 10:40: Saoud Zakaria, Personalizing the result merging process in distributed information retrieval using social profile.
- 11:00: Yasmîna Boughachiche, A new algorithm for Incremental Clustering based on k-means and Ant Colony Optimization.
- 11:20: Khalifa Meriem A Collaborative Search Method for the Traveling Tournaments Problem.
- 11:40: Wahiba Hentabli, A n extension of RSA_512 to RSA_1024 Core under Hardware & Software Platform based on Montgomery Powering Ladder.

12:00 Lunch and Prayer Break

14: 00 **Plenary session**, chairs: Prof. Slimane Larabi & Dr. Hamid Azzoune,

Cooperative multi-agent systems (MAS)

Invited Speaker: **Prof. Nadia Abchiche-Mimouni**, IBISC EA Laboratory, France

15.30 Coffee Break

15.45 Closing Session

@ LRIA-USTHB
